Douglas M. O. Westby

B2B Product & Sales Manager | PMO Leader | Professional Engineer
douglas.westby@gmail.com | +501-610-6465 | douglaswestby.com

Professional Profile

Technology leader and Professional Engineer with over a decade of experience across telecommunications, digital services, and public-sector engineering. Currently leads B2B product and sales for Digi's cloud, cybersecurity, and managed IT portfolio (BZ$3–4M in monthly revenue), after three years heading the PMO and a BZ$10M+ annual project portfolio. Holds PMP, PMI-RMP, and PMI-PMOCP credentials and an Executive MBA, with a track record of turning strategy into results through strong governance, risk management, and cross-functional team leadership.

Professional Experience

B2B TechCo Product & Sales Manager, Commercial Division, Digi | *Belize City, Belize*
July 2026 – Present

- Lead product innovation and sales growth for a B2B technology portfolio generating BZ$3–4M in monthly revenue, spanning cloud services, cybersecurity, and managed IT
- Drive product strategy, roadmap execution, and go-to-market planning across the full product lifecycle
- Grow revenue through structured sales pipelines and deal strategies, with forecasting, performance tracking, and process optimization
- Lead a team of Sales Representatives, Technical Solutions Specialists, and Product Owners, overseeing technical solutioning and client onboarding
- Build and maintain strategic partnerships to expand market reach and strengthen customer success

Senior Manager, Project Management Office, COO Division, Digi | *Belize City, Belize*
February 2023 – June 2026

- Managed a strategic project portfolio exceeding BZ$10M annually, aligned with organizational objectives
- Established governance structures and project methodologies across the technology portfolio, driving standardization
- Led a team of project managers and senior technical staff, setting direction, mentoring talent, and driving consistent delivery across the portfolio
- Led Enterprise Risk Management, Business Continuity, and Health & Safety programs, and spearheaded the Monday.com Workload Management Initiative to strengthen resilience, compliance, and resource visibility

Project Manager, Project Management Office, COO Division & CTO Divisions, Digi | *Belize City, Belize*
May 2022 – January 2023

- Managed the Mobile Expansion Program, adding twelve new cell sites and expanding service coverage nationwide

- Oversaw the Fiber to the Home Expansion Program, integrating fourteen new locations and enhancing customer connectivity
- Led the decommissioning of legacy active equipment, optimizing overall network performance

July 2019 – August 2020

- Managed key workstreams of the BZ$30M Network Optimization Project, redesigning and upgrading the transport, core, and access networks
- Delivered Digi Safe City, a BZ$1M smart analytics surveillance system for the Belize Police Department, alongside other key company projects

Program Manager & New Business Manager, Innovation and New Business Departments, CINO Division, Digi | *Belize City, Belize*
August 2020 – April 2022

- Managed the DigiWallet project from inception to launch, introducing a pioneering mobile payment solution
- Executed the MobilePayz project, facilitating COVID-19 fund distribution to 20,000 beneficiaries, and streamlining financial aid delivery

Senior Designer, Fixed and Transport Network Engineering Department, CTO Division, Digi | *Belize City, Belize*
December 2018 – June 2019

- Designed and provisioned fixed and transport network services and supporting technologies

Director & Technical Advisor, National Engineering and Maintenance Center, Ministry of Health | *Belize City, Belize*
November 2013 – December 2018

- Directed all technical operations including biomedical equipment, transport, building and grounds maintenance
- Managed preventative and corrective maintenance programs for equipment and infrastructure countrywide
- Led the center's administrative and human resources functions
